<b>Stakeholder:</b>	Wood
<b>Observation Date:</b>	16-Jan-2018
<b>Observation Time:</b>	13:00
<b>Observation Close Date:</b>	27-Jun-2018
<b>Details of safety observation:</b>	Went to move my welfare unit to my next job as we took it up into the air it got stuck. It would not go up or down and we could hear a clicking under the seat. When I took the seat up I could see oil on the floor. This was about 1.00pm
<b>Immediate action taken:</b>	Phoned James Spencer to get in touch of the company who looks after them. I phoned James Spence on several occasions and he also got in touch with the company on several occasions they said they would contact me and they never did. I also spoke to Tommy Richards about this as we were concerned about leaving site when it is up in the air as if children got under it would not be safe. So I told Tommy and James Spence that I would put Harris fencing feet under it in case it came down when I leave site. It is now 4.30 and still no phone call from the company who looks after the welfare unit
