Stakeholder:	Client
Observation Date:	08-Oct-2019
Observation Time:	15:00
Observation Close Date:	14-Oct-2019
Observation Category:	Work Environment Pedestrian routes (floors, stairs etc.)
Details of safety observation:	While performing asbestos inspection, nearly walked into a large piece of wire that had unraveled from the palleted product storage area. the wire was from the fencing that sections off each pallet. There were many of these wires sticking out, likely caused by forklift truck damage.
Immediate action taken:	Bent as many as possible out of the way. Please note- This Inspection was for a company/factory shutdown/relocation, during the last final days of run time.
Supporting Information:	
Feedback required?:	No
